Javascript,
HTML,
React Native,
React JS,
Android -
Java/Kotlin,
iOS - Swift,
Firebase,
PHP,
VB 6.0,
Core Java,
Asp.Net,
Crystal Report

Servers

IIS,
XAMPP,
WAMP,
LAMP,

Objective:

Passionate about crafting seamless mobile experiences, I am a dedicated app developer who thrives on challenges and embraces continuous learning. With a solid foundation in software engineering and an ability to transform complex requirements into intuitive app interfaces, by staying attuned to emerging trends and best practices, I strive to create apps that not only meet functionality goals but also inspire users with their usability and design.

I have been in the industry for more than 10 years, started as a Support engineer morphed into developer. I have been through a fair number of technologies such as SQL, VB, PHP, Java, Kotlin, Swift. Recently doing hybrid development in React Native for Android and iOS.

Professional Summary:

- Over 7 year experience in Android / iOS development
- 5+ year experience in React Native Development
- Over 4 year experience in Databases (SQL Server, Access)
- Over 2 year experience in PHP (CodeIgniter) - MySQL
- 2 Year experience in Desktop application development (VB 6)
- Familiar with MySQL, PLSQL
- Familiar with SSAS, SSRS technologies
- Familiar with IIS, Wamp
- Experienced in Core Java, Asp.net and SharePoint Administration
- Experienced in working with multiple teams.
- Team player and work efficiently in Growing and Changing Business Environment.

Professional Experience:
